- Power Cons. in Play / Std-By / Low Power Std By: 16.0 / 4.4 / <4W
- Weight incl. / excl. package in kg: 5,5 / 3,6
- Set Size - W x D x H (mm): 380 x 260 x 93
- Packaging - W x D x H (mm): 450 x 382 x 180
- Equipment Supplied: Aerial Cable, Mains cord, Batteries

Product Highlights

• Plug & Play

Let the VCR guide you through the installation steps and within short your videorecorder will be installed without the need of the user manual. Installing a VCR has never been easier!

• Automatic Time download

The Teletext contains an extremely precise time information. Your videorecorder knows that and during the installation, it automatically reads out this precious information. You can then use your VCR as the clock reference in your home, as the time is readjusted every day. You even don't have to worry about changing from summer to winter time!

• Automatic Satellite Recording

All you need to do is connect your Satellite Tuner to SCART 2 and programme what you want to record on your VCR. When time has come, the Satellite Tuner wakes the VCR up and starts the recording.

• SMART Picture

With this unique feature, you can adapt the picture to your own preference: you can exaggerate the contours on this cartoon or suppress the noise from that rental tape. We offer you the possibility to play your tapes the way you like to see them.

• Digital Studio Picture Control

Thanks to a digitally controlled Noise-Reduction Circuit, you are sure to obtain the best picture quality with any kind of tape.

• Digital Studio Tracking System

Studio Tracking System controls the tape speed so that the video and audio heads read the recorded signal exactly from one track. The heads move accurately along the track to avoid crosstalk from neighbouring tracks.

• TURBO DRIVE

Enjoy the ease of use and the comfort of one of the fastest VCR decks in the world.

	/07
